# **MISSION, VISION AND CORE VALUES**

## **MISSION, VISION, AND CORE VALUES**

### **Mission**

Lighting the Way Forward. Our mission is to stay unique and innovative, taking care of lighting projects while ensuring customer satisfaction, we aim to be the hub of lighting and technical knowledge.

### **Vision**

Our vision is to be the go-to destination for your lighting needs, providing sustainable solutions and instilling confidence in our customers.

### **Core Values**

Teamwork, Passionate, Innovative, Integrity, Listen to our customers.

# ABOUT MICROLIGHTS

For the past 25 years, Microlights has been a tried and tested partner in the lighting industry across the GCC region, Europe, and Asia.

From inception, Microlights has been a beacon of innovation, dedicated to meeting the unique needs of our clients by providing quality lighting products, value-added solutions, with a commitment to sustainability.

Our experienced in-house design team, combined with our meticulous technical and project management experts, ensures the delivery of state-of-the-art lighting solutions. We cater to the Retail, Hospitality, Commercial, Residential, and Industrial sectors, offering Smart Lighting Solutions, professional on-site inspections, wireless Bluetooth dimming control solutions, and comprehensive after-sales support.

# WHY MICROLIGHTS?

WHY ZEE

## **Client-First Approach**

Microlights stands out as a premier choice due to our commitment to providing excellent customer service. From the initial design consultation to product selection, we guide you every step of the way on your lighting journey. Our support extends well beyond delivery, offering ongoing technical advice whenever needed. With a portfolio of clients spanning two decades this stands as testament to the commitment and versatility of our team.

## **Quality and Sustainability**

Quality is a hallmark of Microlights products. We use high-grade sustainable materials and rigorous testing procedures to ensure our lighting products are durable and reliable for years to come, saving you time and money in the long run.

## **Technical Expertise**

Our in-house technical experts are here to evaluate your projects and provide valuable insights where necessary. Whether it's troubleshooting, maintenance, or performance optimization, we ensure our lighting solutions meet your needs efficiently and effectively.

## Aesthetic Appeal

Microlights offer a wide range of designs to suit any aesthetic preference. Whether you prefer modern, minimalist designs, classic or elegant fixtures, we have the perfect lighting solution to match your needs. Our products are not only functional and practical but also add a touch of sophistication and style to any space.

## Certification

Our products are certified according to region and come with CE, CB, and RoHS certifications as standard, ensuring compliance with the highest industry standards.

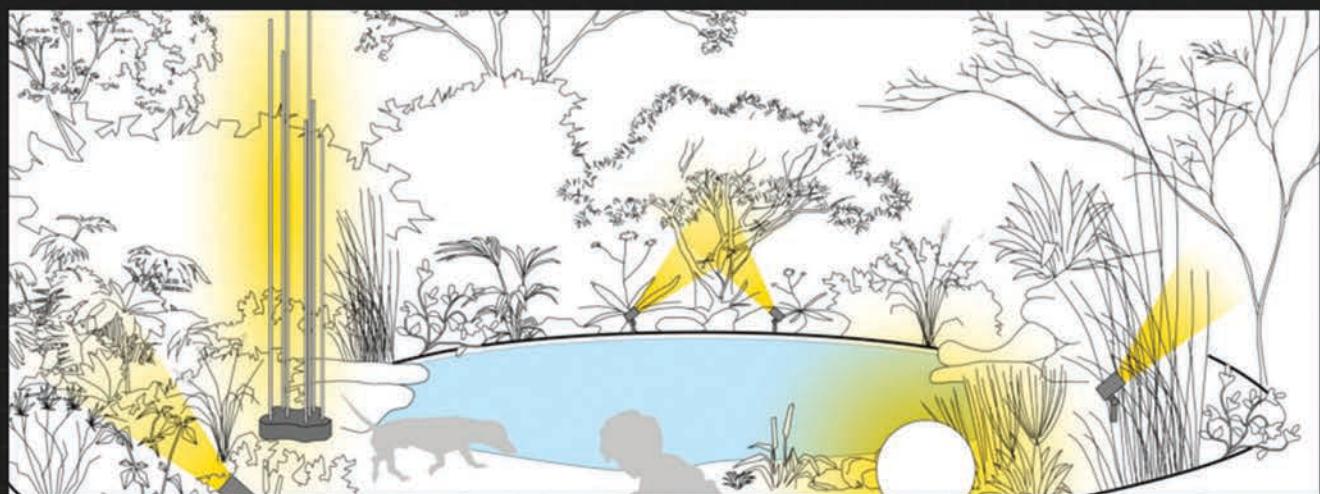

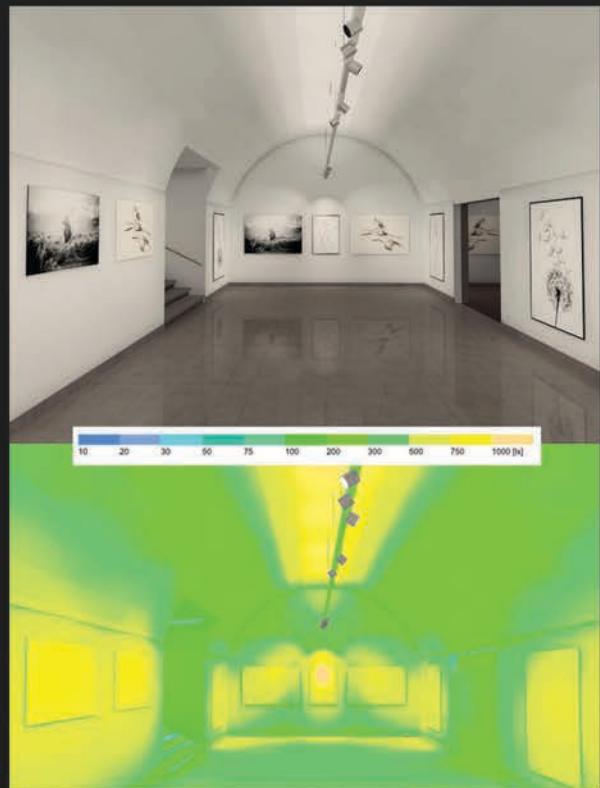

## Warranty

All lighting products carry a five-year warranty as standard, which supports our quality and sustainability message.

# MICROLIGHTS HOUSE OF DESIGN

# MICROLIGHTS HOUSE OF DESIGN

Our in-house design team consists of skilled professionals who are both lighting designers and engineers who are able to offer lighting design services as a separate package for your projects. Our design team is able to work closely with you to ensure that the lighting design aspect of your project aligns with your requirements, is visually appealing, and is value-engineered.

## Conceptual Design

We start by designing from the client's perspective, aligning it with a Lighting Design concept that fulfills both aesthetic and functional needs. Our designers then create detailed drawings to ensure precise spacing and high-visual comfort. We do conceptual presentations based on the architectural elements helping the client visualize the outcome, which is a crucial part of the process.

## Lighting Calculations

Our lighting designers utilize lighting simulation software to ensure the proposed fixtures deliver sufficient ambient light and achieve optimal illumination. At this point, we produce a 3D visualization of the intended lighting design.

## Design Documentations

We adhere to RIBA stages for our documentation, including RCP, low-level layouts, control wiring diagrams, elevations, and sections. Our services also include LPD, LEED/ESTIDAMA compliance evaluations for green building projects, load calculations, submittals, and tender documentation.

## Final Commissioning & After Sales

Before site handover, our engineering team verifies fixture orientation and checks lux levels. Post-project, our technical team is available to address any installation errors or product failures within the warranty period, ensuring your peace of mind throughout.

By choosing to instruct us to be your designer of choice for your lighting projects, you will receive ongoing support and maintenance so that your lighting solutions remain in optimal condition.

# YOUR EXPERIENCE WITH US

We, at Microlights have evolved our process over time to give our clients the best possible experience for a successful lighting journey with us.

YOUR EXPERIENCE WITH US

# OUR PROCESSES

## Step 1: Consultation with our Sales Team:

Our experienced sales team will listen to your needs and advise you on how Microlights can provide tailored solutions for your requirements.

## Step 2: Tailor Made Solutions by Our Lighting Designers:

Our dedicated team craft bespoke solutions that align with your needs and vision. You can expect transparency and full collaboration throughout the process. Your satisfaction is our priority.

## Step 3: Factory and Warehouse Logistics:

From factory to warehouse, to you, we will ensure that all products are carefully packed, labelled and delivered in a timely manner, giving you peace of mind every step of the way.

## Step 4: Professional On-Site Visits and Advice:

Our highly skilled technicians are available to advise on-site contractors with technical advice where necessary, so that your project, when delivered, meets with your expectations and initial vision.

## Step 5: Ongoing After-Care Support:

We appreciate the competitive world that we live in, and therefore Microlights prides itself on providing excellent aftercare service in order to build long term relationships with our customers. This includes technical support, maintenance, customer service and follow-up communications.
